

## AERC Systems

### Features

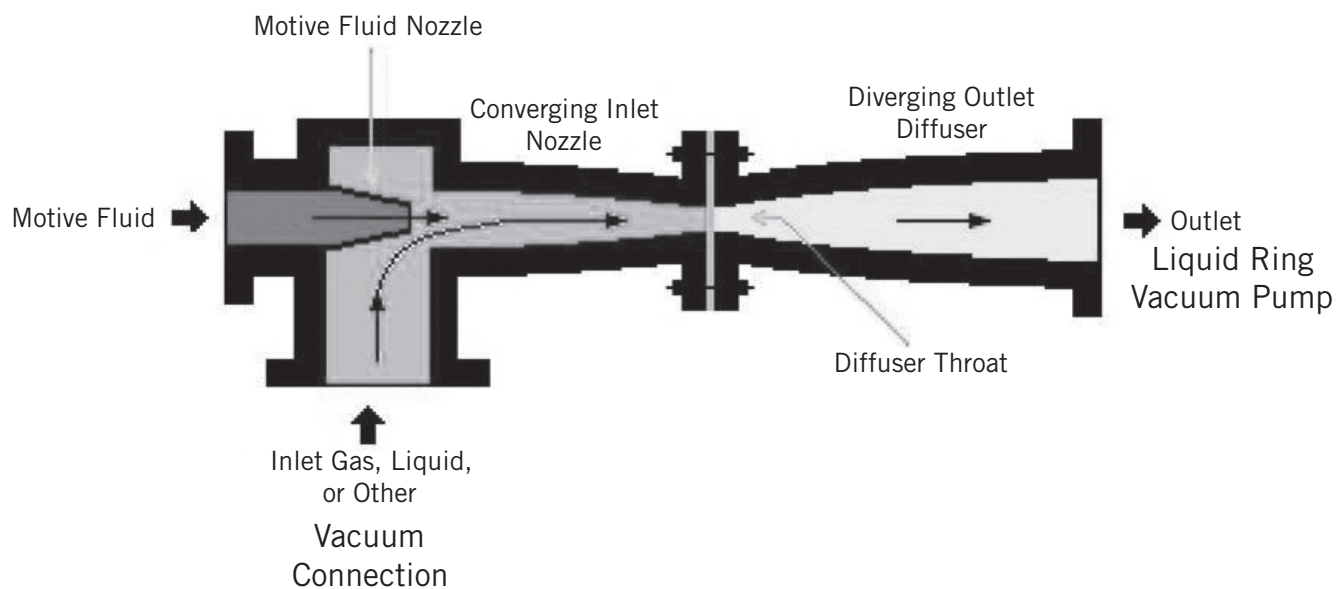

- KLRC Series two-stage vacuum pump
- Capacity range: 30-550 CFM
- Operating pressure 10 Torr
- Blank-off vacuum down to 3 Torr
- Mount ejector in any position
- Cast Iron/SS and all SS material offerin

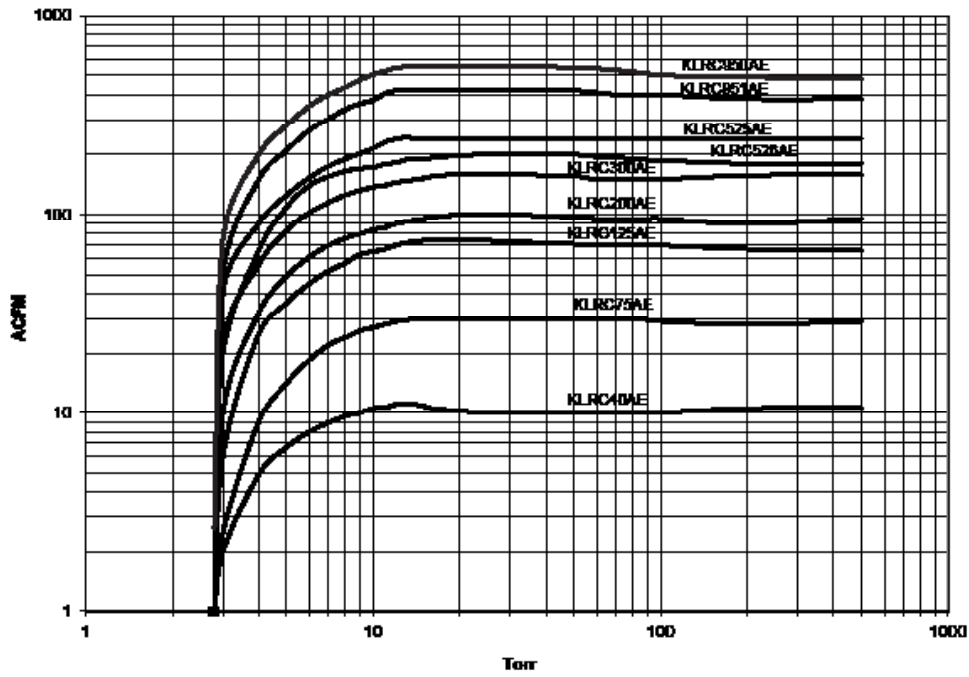

Kinney® Air Ejector/Liquid Ring Vacuum Pump Systems are fully assembled with all interconnecting piping and are fully tested and painted before shipment. They offer several advantages including:

- Deeper vacuum than liquid ring pump alone
- Air ejector has no moving parts to fail
- Less expensive and easier to operate than Booster/Liquid Ring system

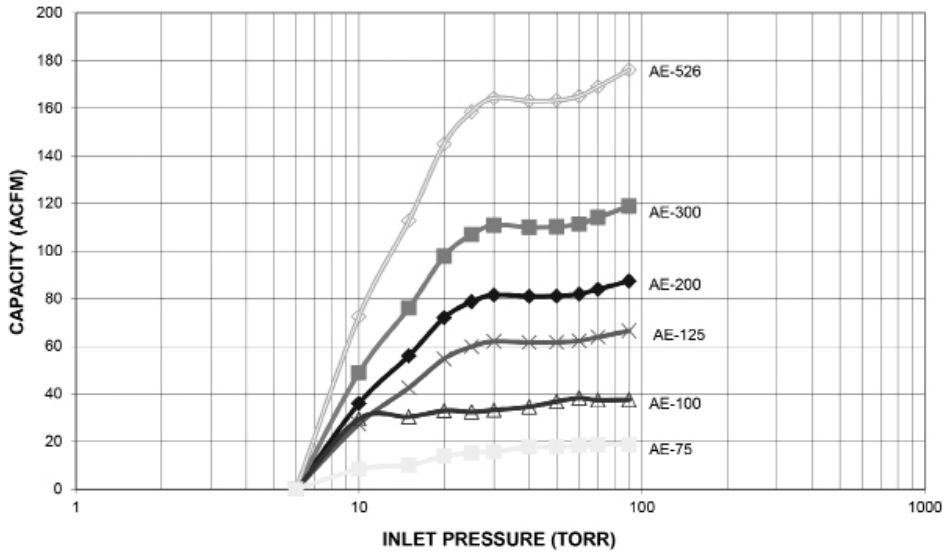

### Air Ejector Principle of Operation

## AERC System Performance

## Air Ejector Type 2 Capacity vs. Inlet Pressure
